Some of the notable differences include support for multiple pool load balancing, implementation for idle state for GPUs when there's no work, two additional modes for controlling intensity - xintensity and rawintensity for additional performance, faster failover pool switching back delay and interface improvements such as uptime status or percentage of rejected shares and so on. Author Topic: OFFICIAL CGMINER mining software thread for linux/win/osx/mips/arm/r-pi 4.11.1. (Read 5803090 times) This is a self-moderated topic. One such version based on cgminer 3.7.2 is Martin "Kalroth" Danielsen's cgminer 3.7.2 that he calls cgminer 3.7.3 in order for the users to be able to differentiate between the original and his version. In cgminer 3.7.2 kalroth (cgminer 3.7.3) he has made changes to the visual interface to make it more user friendly and functionality that can help you squeeze a bit more performance out of your GPU mining hardware. Furthermore the windows version of the last cgminer to support GPU mining has been removed from the official download location, you can however download cgminer 3.7.2 with GPU support for windows here. You can also build the miner yourself from source if you wish. So if you are mining for Litecoin (LTC) or other alternative script-based crypto currency you would need to download cgminer 3.7.2 in order to be able to use your graphics cards for mining it. More importantly, there are already some alternatives that are based around the original source code of cgminer 3.7.2, but add extra features and offer improvements that are not found in the original software. The cgminer version 3.7.2 is the latest official version of cgminer with GPU mining support, all newer versions are designed for use only with SHA-256 ASIC miners for Bitcoins and will not work on GPUs for script mining anymore. So if you need to download cgminer 3.7.2 for Windows you can do so from the link below as we have provided a mirror location. Definitely something to try and see if you like this version of cgminer better than the original 3.7.2. - You can download cgminer 3.7.3 kalroth with GPU mining support for Windows OS here... Published in: Mining Software Related tags: cgminer, cgminer 3.7.2, cgminer 3.7.3 windows, cgminer 3.7.2 windows download, cgminer 3.7.3 windows, cgminer alternative, cgminer for windows, cgminer gpu, cgminer gpu download, cgminer gpu support, cgminer litecoin, cgminer script mining, Con Kolivas, download cgminer, download cgminer 3.7.2, download cgminer 3.7.3, failover pool switching, gpu miner, GPU mining, kalroth, litecoin gpu miner, litecoin gpu mining, Martin Danielsen, multiple pool load balancing, pool load balancing, rawintensity, script mining, windows script mining, xintensity Download cgminer 3.7.2 with GPU support for Windows 31, Jan 2014 It seems that the author of cgminer has removed the compiled Windows version of cgminer 3.7.2 from the official download location here and you may have a hard time finding it at a different safe location. Example command line for Scrypt mining: cgminer --scrypt -o stratum+tcp://eu.multipool.us:7777 -u yourworker.1 -p password Alternatively you can edit the cgminer.conf file with your mining settings and just run the cgminer.exe executable file to start mining. - You can download cgminer 3.7.2 with GPU mining support for Windows OS here... Published in: Mining Software Related tags: cgminer, cgminer 3.7.2, cgminer 3.7.2 download, cgminer 3.7.2 Scrypt miner, cgminer 3.7.2 windows, cgminer 3.7.2 windows download, cgminer for windows, cgminer gpu, cgminer gpu download, cgminer gpu support, cgminer litecoin, cgminer litecoin mining, cgminer ltc, cgminer ltc mining, cgminer script mining, download cgminer, download cgminer 3.7.2, gpu miner, GPU mining, litecoin gpu miner, litecoin gpu mining, ltc gpu miner, ltc gpu mining, Scrypt GPU miner, scrypt gpu mining, script mining, windows script mining If you do not want to be moderated by the person who started this topic, create a new topic. So if you are still using the old version 3.6.6 of cgminer with keccak support, then you better update to the new cgminer 3.7.3 kalroth release for mining MaxCoins (MAX). (3 posts by 1+ user deleted.) Download cgminer 3.7.2/3 with Keccak Support for MaxCoin Mining for Windows 11, Feb 2014 There is now an updated version of cgminer based on 3.7.2 (kalroth cgminer 3.7.3) with support for MaxCoin's keccak (SHA-3) algorithm that is more stable and optimized than the previously available cgminer 3.6.6 with keccak support. If you are looking for the last original release of the cgminer version 3.7.2 before Scrypt GPU mining was removed from cgminer, do note it does not have support for the Keccak algorithm (however!) Example command line for Scrypt mining: cgminer --scrypt -o stratum+tcp://eu.multipool.us:7777 -u yourworker.1 -p password - You can download cgminer 3.7.3 kalroth with GPU mining support for Windows OS here... Published in: Mining Software Related tags: cgminer, cgminer 3.7.2, cgminer 3.7.2 keccak, cgminer 3.7.2 keccak windows, cgminer 3.7.2 windows, cgminer 3.7.2 windows download, cgminer 3.7.3, cgminer 3.7.3 keccak, cgminer 3.7.3 keccak windows, cgminer 3.7.3 windows, cgminer 3.7.3 windows download, cgminer for windows, cgminer gpu, cgminer gpu download, cgminer gpu support, cgminer keccak, cgminer keccak download, cgminer keccak windows, cgminer keccak windows download, cgminer max, cgminer maxcoin, cgminer sha-3, cgminer sha-3 download, download cgminer, download cgminer 3.7.2, gpu miner, GPU mining, Keccak, MAX, Maxcoin Download cgminer 3.7.3 kalroth with GPU support for Windows 6, Feb 2014 If you are mining Scrypt crypto currencies such as Litecoin or maybe DOGE, then you are most likely using cgminer as a mining software or something that relies on cgminer as a backend. The author of cgminer (Con Kolivas) however seems to have decided to continue support of cgminer only for ASIC mining for SHA-256 cryptos such as Bitcoin and version 3.7.2 is the last one for cgminer to support GPU mining for script crypto coins. The official download location only offers source code versions of the cgminer and that goes for cgminer 4.0 or newer only.
